SUMEDH ACHARYA

Data Analyst Pune, Maharashtra 8380899423 | sumedh.india2025@gmail.com

ABOUT ME

A data science professional with a foundation of 2 years in fast-paced, high-pressure restaurant management. I bridge the gap between operational friction and technical strategy by applying rigorous analytical thinking to every project I undertake.

- **Team Builder:** I actively cultivate high-performing environments by aligning diverse teams with organizational standards to ensure seamless efficiency and superior customer satisfaction.
- **Logical Thinker:** I deconstruct complex business obstacles into structured technical frameworks, optimizing database systems and query logic for scalable, reliable performance.
- **Analytical Thinking:** I am driven to uncover hidden patterns within data usage to deliver evidence-based insights that directly influence strategic business growth. I leverage advanced statistical analysis to deliver compelling data-driven narratives that guide strategic, evidence-based decision-making.
- **Process Optimization:** Dedicated to improving data accuracy and enabling strategic, evidence-based decisions.

COMPETENCIES & EXPERTISE

- **Data Lifecycle:** Expert in Data Analysis, Cleaning, Validation, and Interpretation.
- **Business Intelligence:** Skilled in dashboard development and reporting using Power BI and Tableau.
- **Advanced Analytics:** Proficient in statistical analysis, trend identification, and basic forecasting.
- **Database Management:** Advanced SQL Querying and Database Management.

CERTIFICATIONS

- Advanced Excel for Data Analysis
- Machine Learning with Python
- Microsoft Power BI
- SQL for Data Analysis
- Basics of AWS

EXPERIENCE

BKUK Group | **Data Analyst** | London, UK *02/2025 – Present*

- Architected and tracked patterns based on data usage and trends to pinpoint specific areas for improvement.
- Engineered comprehensive dashboards and data comparisons to identify emerging trends and market opportunities.
- Translated online survey datasets into statistical reports to guide senior management decision-making.

Pizza Hut | **Shift Manager** | London, UK *03/2024 – 08/2024*

- Modernized departmental workflows by aligning local practices with corporate standards to maximize service speed.
